

P2A Navigator Release Notes September 12, 2023

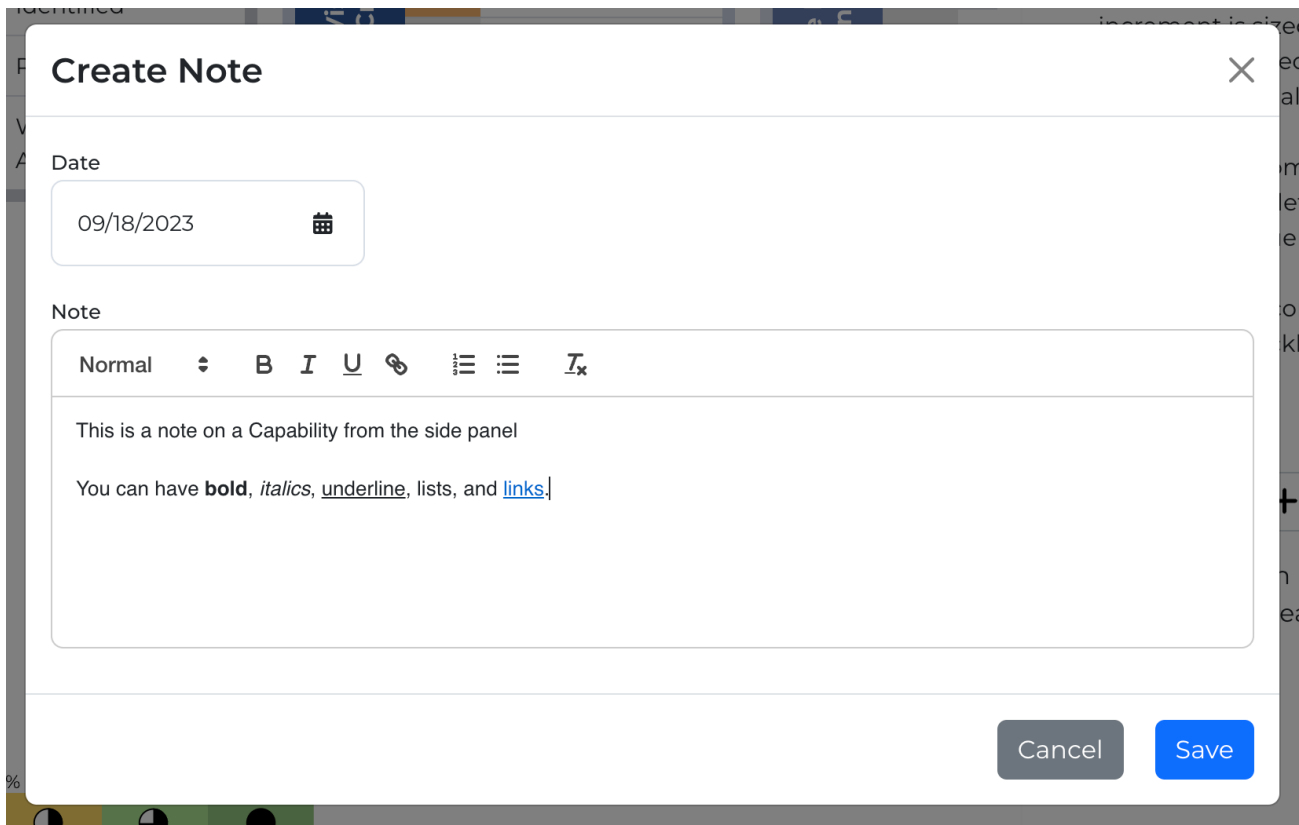

09/18/2023 2:06 pm CDT

Hey Navigators, we just dropped an update. Here's what's new:

New Features

The screenshot displays a note within the P2A Navigator application. At the top, the title 'Mechanism to Measure Progress' is shown next to a bar chart icon and a 'Select Progress' dropdown menu. The note is divided into two columns: 'Description' and 'Acceptance Criteria'. The 'Description' column contains the text: 'There is a plan in place to measure and communicate progress towards the transformation goals.' The 'Acceptance Criteria' column lists three bullet points: 'Gaps have been identified from current data collection mechanisms for capturing data associated with the transformation progress', 'These gaps are filled with new mechanisms to collect data associated with the transformation progress', and 'Progress reporting cadence and format has been defined'. Below the text is a rich text editor with a toolbar containing options for 'Normal', bold, italic, underline, link, list, and link removal. The editor content includes the text 'Establish progress measuring cadence', a bolded heading 'This is urgent', a numbered list with three steps (Step 1, Step 2 (this is crucial), Step 3), and a link to 'https://help.p2anav.com/home'. At the bottom of the note, there is a 'History' section with a dropdown arrow.

- Notes are now detached from assessments and can be added at any time without needing an assessment to be active. You can read and write notes for an Agile Capability either by using the Agile Capability side panel, accessible by clicking an Agile Capability in most areas of the application, or by writing notes in polls or assessments as usual.
 - Notes are now *not* copied from previous assessments when you checking the "Populate this assessment with data from a past assessment." checkbox; this only copies assessment scores now.
- The side panels now have backwards navigation. In other words, you can press the new back button to return to the last section of the side panel you were viewing.
- Notes are also now rich text, so you can add links, formatting, etc.

Bug Fixes

- Fixed action items not displaying or adding in certain cases in polls and assessments
- Fixed user audit logs throwing errors in some areas

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
