Hi, we've just released a smaller update to P2A Nav to finish out the Friday. Here's what is in store this time around:

Changes

- Added some new user guidance to the Dashboard and Assessments pages.
- Removed "Vision" tab for now. We intend to revisit this functionality at a later date.
- Notes within exported assessments from Navigator now will be stripped of their rich-text formatting.

Bug Fixes

- Fixed issue with Knowledge Base widget not correctly detecting certain page changes, most commonly to Assessments and Objectives pages.
- Fixed issue with Multi-Node Capabilities page that was missing certain values in the distribution visualizations.
