# P2A Navigator Release Notes October 5, 2023

10/05/2023 4:40 pm CDT

Hi, we've just released a smaller update to P2A Nav. Here's what changed:

## Changes

- Changed the Assessments screen's Launch Poll icon-button into a larger button with text that reads "Assess" in order to make it easier to find the Agile Capability polling functionality. We also added this new button to the Capabilities page and the Dashboard. The Map currently still uses the old icon-button to launch the Agile Outcome poll.

## Bug Fixes

- Fixed an issue that led to Action Items not displaying properly on the Actions kanban board. You might encounter certain Action Items that were "missing" reappearing on your kanban board as we have corrected the data.
