

# P2A Navigator Release Notes October 26, 2023

10/26/2023 9:48 am CDT

Hi, we've just released an update to P2A Nav. Here's what changed:

## New Features

- Company admins are now able to manage some aspects of their company by clicking the yellow circle in the top right of Nav that has their initials and clicking "Manage company account". You are able to view overviews of how many organizations, systems, and teams of your package you have used up, as well as a count of how many users you have invited. You can change the display name of your company, as well as initiate processes to change packages and close your account if desired.

- Made various under-the-hood fixes to improve backend performance.
