

P2A Navigator Release Notes

January 18, 2024

01/18/2024 6:18 am CST

Hi, we've just released an update to P2A Nav. Please let us know what you think about all of these changes; we would love to hear. Here's what changed:

New Features

- The app's navigation has been significantly reworked. You'll now see primary navigation in the new left sidebar. Secondary menu items remain in the top right of the screen and under the user avatar.
- Objectives feature has been removed and is being replaced by a new opt-in Metrics feature. Metrics Beta Users will be able to define and track metrics from within Navigator, load metrics templates from a library, and more! Please let us know if you would like to opt-in as a beta tester for Metrics.

Changes

- The Assessments page has been simplified. We believe that the functionality of the old Assessments page is overshadowed by the Offline Survey/Live Poll or Capabilities page. Now, the Assessments page is to be used as a launching point for the Offline Survey/Live Poll, and to mark teams/systems/organizations as completed.
- The Capability Side Panel has been added to the Capability live polls, replacing the Add Work Items menu and the notes dialog. You can access it by clicking the pencil icon on the right side of the facilitator view.
- The Objectives page has been removed.
- Map page has been updated. You can now launch Business Outcome Polls from the Map.
- The launch Agile Outcome Poll button has been moved to the top right of the Map; before it was in the top left corner of the Map.
- Business Outcomes can be cleared on the Prioritization page.

Bug Fixes

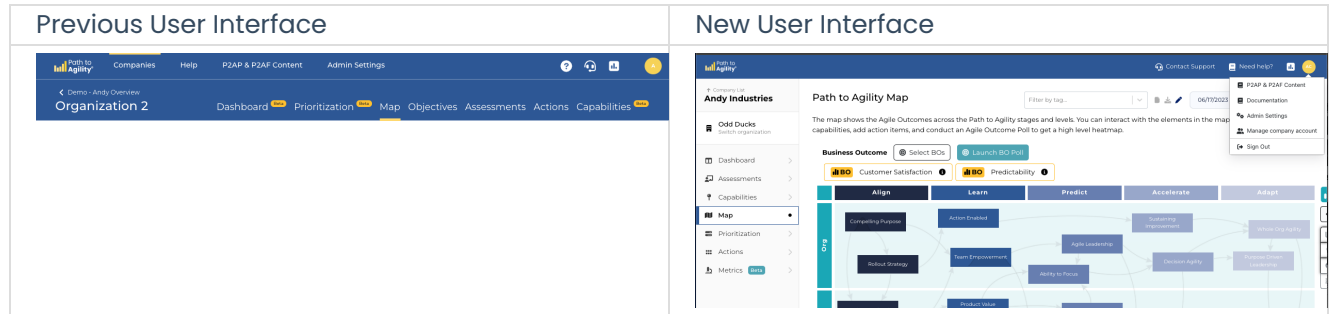

- Fixed an issue where the Offline Survey would count answers marked as Select Progress as completed.
- Fixed an issue related to launching Live Polls from the Dashboard page.
- Fixed an issue causing polls and surveys to become inaccessible for some users in some cases.
- Fixed an issue where text in multiple locations would show blue instead of black on iOS mobile devices.
- Fixed an issue where trying to access a bookmarked organization would redirect you to your previously accessed organization instead.

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator,

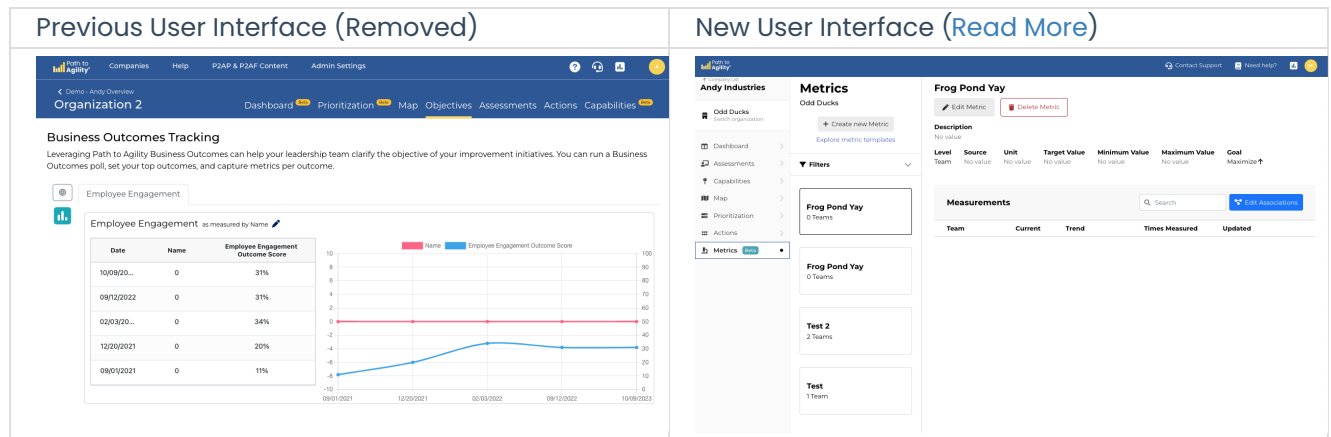

sending a message in our Path to Agility Slack, or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!

Visual Summary of Significant Changes

Navigation Menus

Objectives -> Metrics (Beta)

Assessments Screen

Assessment

With Assessments you can gather data at the Agile Capability for each team, system, and organization.

Click **Assess** below to start an assessment for your selected organization, system, or team.

Click **Mark as complete** below to lock in the answers for that organization, system, or team and indicate to your organization that the section is complete. You can still choose Edit to continue editing those answers.

When your organization has finished assessing all of the capabilities you want to assess at each level, **Submit Assessment** can be used to mark the organization's assessment complete.

Testing

Date: 10/09/2023

Organization 2 28 of 40 Assess

- SYS System 1 25 of 26 Assess
- TM Team 1 30 of 34 Assess
- SYS System 2 0 of 26 Assess
- SYS System 3 0 of 26 Assess
- TM 3A 0 of 34 Assess
- TM 3B 0 of 34 Assess
- TM 3C 0 of 34 Assess

Organization 2 Mark as Complete Assess

Align (62%) Learn (83%) Predict (93%) Accelerate (93%) Adapt (93%)

Compelling Purpose

The organization is aligned and motivated by a clear organizational purpose, vision, set of objectives, and a compelling purpose for change and improvement.

MAC Org Vision Select Progress

Description
The vision describes the organization's purpose and what it is agreed to be.

Acceptance Criteria:

- The vision inspires and motivates the organization.
- The vision aligns the organization to a common goal.
- The vision is clear and everyone in the organization can speak to it.
- The vision informs the strategic themes of the organization.

Assessments

With Assessments you can gather data at the Agile Capability for each team, system, and organization.

Click **Assess** below to start an assessment for your selected organization, system, or team.

Toggle the **Complete** switch below to indicate to your organization that the section is complete.

When your organization has finished assessing all of the capabilities you want to assess at each level, **Submit Assessment** can be used to mark the organization's assessment complete.
