02/01/2024 2:59 pm CST

Hi, we've just released an update to P2A Nav. Here's what changed:

Changes

Assessments

- Created the ability for Offline Survey participants to add private comments while assessing individual Agile Capabilities (e.g., why they voted the way they did) so they can refer to them during collaborative review sessions

Knowledge Base

- Added the ability to [subscribe to KB categories](#), so that users will be notified automatically of changes and updates.

Bug Fixes

- Fixed assessment export permissions for "Basic User" (Now able to export a single org assessment as well as all org assessments)
- Fixed an issue related to launching polls or surveys in published assessments
