Hi, we've just released an update to P2A Nav. Here's what changed:

New Features

- **Organization and System Dashboards**
 - You can now leverage the dashboard feature (previously available for Teams only) to visualize Organization and System performance and progress via roadmaps, business objectives, and action item backlogs.
 - At the same time, we added the display of notes to the dashboard, below the action item widget.
 - For more details, see our updated knowledge base article: [Org and System Dashboards](#)
- **Reports: Opt-in Beta Feature**
 - P2A Navigator's Reports feature, currently in beta, allows you to "Tell a good story" by generating customized PDF reports that you can download and share with stakeholders! #Openness #Transparency
 - Take a peek via this KB article: [Overview and Key Interface Elements](#)
 - The beta release has two reports: Capabilities Summary and Capability Details. More are coming soon!
 - If you are interested in gaining access to the Reports beta, please email support@pathtoagility.com.

Bug Fixes

- Fixed an issue related to editing an existing metrics measurement.
Note: [Metrics](#) is currently in beta. If you'd like access, email support@pathtoagility.com.

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
