Hi, we've just released an update to P2A Nav. Here's what changed:

Feature News

Metrics Feature is Now Live

- After a beta period, we are happy to bring the metrics feature to all of our P2ANav users!
- Read more about the feature, including using our built-in metrics templates, creating your own metrics, and entering measurements in this knowledge base article: [Metrics](#)
 - Note: Creating metrics, or applying metrics templates can be done by Company Admin or Assessment Admin roles only. All users can enter measurements once a metric has been set up.
- We hope you'll leverage metrics to gain meaningful insights and provide feedback loops for continual improvement at team, system, and organizational levels.

Reports Beta Enhancements

- We've incorporated early user feedback and continue to iterate on the Reports feature.
- Take a look at the [Reports](#) knowledge base article for an overview.
- The feature is still in beta as we build out additional report types. If you'd like access to generate customized PDFs that help to "tell a good story", please email support@pathtoagility.com!
