

P2A Navigator Release Notes

March 22, 2024

03/22/2024 1:25 pm CDT

Hi, we've just released an update to P2A Nav. Here's what changed:

New Features

- (Beta) Reports: All reports now have an option to view them in Landscape mode or Portrait mode.

Bug Fixes

- **Major performance improvements** have been made across all of Navigator; pages should load **significantly faster**, and you should spend less time looking at the "We're making you a cookie" screen (even though we **love** making you cookies!).
- Added protections against two users creating assessments for the same organization at the same time.
- Added protections against two users launching Live Polls or Offline Surveys for the same node (Organization/System/Team) at the same time.
- Metrics: Fixed an issue that caused associated nodes to not immediately display when associations were updated.

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
