

P2A Navigator Release Notes

April 10, 2024

04/10/2024 3:31 pm CDT

Hi, we've just released an update to P2A Nav. Here's what changed:

New Features

- The "Assess" button on the Dashboard, Assessments, and Capabilities page will now say either "Continue Survey" or "Continue Poll" if an Offline Survey or Live Poll is already active for that node (organization, system, or team). This will make it more clear which teams currently have surveys or polls in progress.
- Reporting (Beta): The Assessment Summary report will now indicate the name of the node it was generated for in the header on all pages. Thanks for the feedback on this one!
- We have a new **Team Tagging** feature that is now entering beta. It enables large corporations to tag teams across organizations within the company to make selecting a specific group of teams easier. Currently, this only applies to node selection in the Reporting and Metrics sections. Please send a message to support@pathtoagility.com if you're interested in testing this feature out!

Bug Fixes

- Fixed an issue where the Agile Outcome poll would launch with all 26 Agile Outcomes despite the first three stages being shown as selected in the configuration dialog.

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
