P2A Navigator Release Notes April 18, 2024

04/23/2024 1:28 pm CDT

Hi, we've just released an update to P2A Nav. Here's what changed:

New Features

- Action Items: Organizations can now be directly assigned to action items in the same way systems and teams can.
- Reports (Beta): Renamed the "Averages" columns on the Capability Detail report to be more clear.

Changes

- Significantly improved load performance on various pages within the application.
- Removed Generate Map Link functionality from the Map page.

Bug Fixes

- Fixed an issue where customized Path to Agility language would not display for participants in Agile Outcome and Agile Capability polls.
- Fixed an issue where the tooltip would incorrectly display the type of poll on the Assess button on the Dashboard, Capabilities, and Assessments pages.
- Fixed an issue where the list of nodes in the Outcome and Capability side panels did not display all nodes properly.
- Fixed an issue on the Dashboard where the Org/Sys/Team dropdown would be covered by the Agile Outcomes displayed on the map slice.

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
