

# P2A Navigator Release Notes

## May 1, 2024

05/01/2024 1:58 pm CDT

Hi, we've just released an update to P2A Nav. Here's what changed:

### New Features

- Our **Team Tagging** feature is now available to all companies, with access limited to users with the company admin role within these companies. Team Tagging allows larger enterprises with a more complex organizational hierarchy to create tags and tag categories, and assign tags to teams within their organization to make repeated reporting more streamlined. On the company hierarchy page, company admins will now see a "Manage Tags" button to create and assign tags, and within the Metrics and Reports sections users will see a tag search filter. The Knowledge Base will be updated with documentation regarding Team Tagging soon.

### Bug Fixes

- Fixed an issue causing Action Items to disappear from the Actions board due to conflicting simultaneous edits from two or more users. Any Action Items that had disappeared as a result of this bug should now be visible again.

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at [support@pathtoagility.com](mailto:support@pathtoagility.com). Thank you for being a Path to Agility Navigator user!
