

P2A Navigator Release Notes

July 2, 2024

07/02/2024 2:51 pm CDT

Hi, we've just released an update to P2A Nav. Here's what changed:

New Features

- For our enterprise customers, we've introduced a new API endpoint that gets a list of all of the teams present within your Navigator instance. Our API documentation is available [here](#).

Changes

- Company Dashboard: The page loads automatically with defaults instead of requiring filters to be selected.
- Company Dashboard: Updated the visuals of the filters.
- Company Dashboard: Removed the "% Assessed" metric on certain figures in order to streamline the presentation of the information.

Bug Fixes

- Fixed an issue where the language on the organization/system/team Dashboard would always use the word "team" instead of the appropriate level name.

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
