

# P2A Navigator Release Notes

## July 16, 2024

07/16/2024 12:46 pm CDT

Hi, we've just released an update to P2A Nav. Here's what changed:

### New Features

- Reports: Added a Notes Report where you can export all Notes to a CSV file for a selected set of nodes (organizations, systems, and teams). This feature is currently in Beta; please let us know if you would like it activated for your instance.
- Prioritization
  - Updated so that you can select Level of Capabilities to view for the selected organization, system, or team. You can only view a capabilities at or below the level of the node. For example, Systems can only view system level or team level capabilities, but not organization. This can be used to see an aggregate of all teams' performance on team capabilities within a system towards a specific Business Outcome.
  - Updated some language to improve clarity.
  - Updated some visuals to improve clarity.
- Live Poll: Acceptance criteria accordion starts expanded for both participants and facilitators.
- Company Dashboard: The data on the page will now be reloaded automatically when the filters at the top are modified.

### Bug Fixes

- Fixed an issue where the Actions board would still appear to move an item even if an error occurred during the interaction.

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at [support@pathtoagility.com](mailto:support@pathtoagility.com). Thank you for being a Path to Agility Navigator user!
