

P2A Navigator Release Notes August 1, 2024

08/02/2024 1:29 pm CDT

Hi, we've just released an update to P2A Nav. Here's what changed:

New Features

- The Notes Report is out of beta and has been released. You can find it under the Reports tab from within an organization. It can be used to export all notes from a date range for a set of nodes (organizations, systems, and teams) in order to identify trends of notes written between your teams. [Learn more](#)

Bug Fixes

- Fixed an issue in Polls where users could encounter errors from clicking continue too fast after entering their display name.
- Fixed an issue where Partnership admins could not modify the settings of their companies.
