

# P2A Navigator Release Notes

## August 16, 2024

08/16/2024 3:04 pm CDT

Hi, we've just released an update to P2A Nav. Here's what changed:

### New Features

- Live Poll: The timer has had its functionality expanded. The host can now set a default starting time in seconds for the timer for when they switch capabilities. Additionally, the participants are now able to see the time remaining on the participant interface. Thanks for the suggestion on this!

### Bug Fixes

- Fixed an issue that caused an increased number of requests to be sent in the application when using the Business Outcome poll. The effects of this sometimes resulted in an increased error rate on our backend servers, which is now corrected.
- Fixed an issue where date pickers would incorrectly indicate selected time intervals in some cases.
- Fixed an issue where users could proceed without entering a name in the Offline Survey.

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at [support@pathtoagility.com](mailto:support@pathtoagility.com). Thank you for being a Path to Agility Navigator user!
