Hi, we've just released an update to P2A Nav. Here's what changed:

Changes

- Organizations, Systems, and Teams should show in alphabetical order in all parts of Navigator. Please let us know if this does not appear to be the case anywhere.
- Notes should consistently show in most recent to oldest order in all parts of Navigator. Please let us know if this does not appear to be the case anywhere.
- Metrics are now sorted alphabetically by name.
- Improved readability of icon buttons on Manage Hierarchy page.
- Improved error feedback when trying to create an assessment with the same name as another assessment.

Bug Fixes

- Fixed an issue where the node filter would not retain its state when an Action Item was moved between columns on the Actions board.

Knowledge Base

- Added an article describing [what individuals should be present in Organization and System level assessments](#).

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
