

P2A Navigator Release Notes

January 14, 2025

01/30/2025 11:14 am CST

Hi, we've just released an update to P2A Nav. Here's what changed:

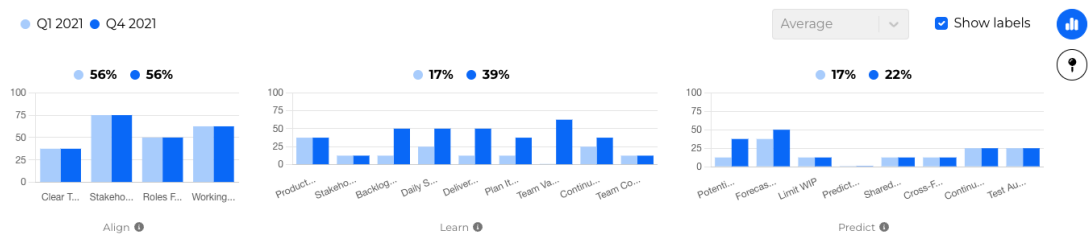

New Features

- **Insights Report - Comparison Feature**

The Comparison feature provides a view of data from two different assessments. The granularity of the data is controlled by the filter controls (see above) which specify level, nodes, and stages to be included in the comparison. In the comparison view, the older assessment will be listed before the newer one. Similarly, in the chart, the data for the older one will be on the left with the data for the more recent assessment on the right. This allows users to easily pick two assessments to compare with a consistent, chronologically ordered view of the results. Read more on the [Insights](#) page.

Overall Average of Q1 2021: 30% [How are the scores calculated?](#)
2 of 2 teams have data

Overall Average of Q4 2021: 39%
2 of 2 teams have data

Beta Features*

- Usage Report Export Option - team-level usage reporting can now be exported as a CSV file. See details [here](#).
- Node Archival - under Settings > Manage Hierarchy in addition to being able to move and delete nodes (organizations/systems/teams), administrators can now archive as well. See details [here](#).

* send beta test requests to: support@pathtoagility.com

Changes

- Updated the Assignee field on Action Items to list existing names in alphabetical order for easier navigation and assignment.

Bug Fixes

- Updated assessment notes so the date field is isolated from the text. (Date field was displaying embedded in the note text.)

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
