

P2A Navigator Release Notes

March 26, 2025

03/26/2025 12:15 pm CDT

Hi, we've just released an update to P2A Nav. Here's what changed:

New Features

- When teams or systems are moved to a new location, their historical data is still accessible. The data can be seen by clicking "show more" in the side panel.
- Assessment Exports now include a column reflecting the state of a node as archived, (has been) moved, or active.
- Archived organizations, systems and teams no longer count against license limits.

Beta Features*

- Assessment Admin permission updates. Company Admins are now the only users allowed to create, delete, archive, or edit organizations. They are also the only role allowed to move systems or teams. Assessment Admins will no longer have these permissions. [More Information Here](#)
- Filters now support the ability to include moved systems/teams.
- Enhanced move functionality. *This is restricted to COMPANY ADMINISTRATORS only.* When you move a system/team you have an option to move all assessment data, keep all assessment data where it currently is, or move only the unpublished assessment data (shown below). This feature therefore enables you to move a system or team without changing any of your baseline data. [More Information Here](#)
 - Keep published assessment data in current organization, move unpublished assessment data to new organization (**Recommended**)
 - Keep all assessment data in current organization
 - Move all assessment data to new organization

* send beta test requests to: support@pathtoagility.com

Bug Fixes

- Fixed an issue preventing an offline survey participant from receiving OTP codes due to an incorrect email entry.

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator, sending a message in our Path to Agility Slack, or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
