

# P2A Navigator Release Notes

## April 1, 2026

04/01/2026 10:34 am CDT

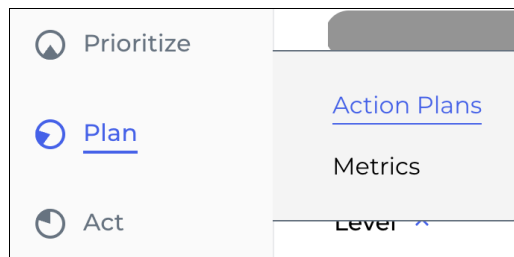

Hi, we have new release information for P2A Nav.

### New Features

#### Action Plans

As we focus on making Navigator the continuous improvement platform that delivers real ROI, we've added support for creating Action Plans. Action Plans are part of planning in the continuous improvement cycle of Assess, Analyze, Prioritize, Plan, and Act. It's the concept of creating Action Items for prioritized capabilities. As Plan follows Prioritize in the cycle, once capabilities have been prioritized, the next step is to identify actions that will improve proficiency in those capabilities. Data shows that the more a goal is communicated, the more likely it is to be accomplished. This is the philosophy we've used to add accountability in Navigator for continuous improvement.

Create and view Action Plans under the Organization view, Plan menu.

See the knowledge base article on [Creating Action Plans](#) for a full overview.

### Updates

- Added support for participants to support an edge case where the facilitator of a live poll is/going offline. When this is detected, participants will be notified with a message on their screens informing them that the facilitator is offline.

### Bug Fixes

- N/A

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator or by writing to us at [support@pathtoagility.com](mailto:support@pathtoagility.com). Thank you for being a Path to Agility Navigator user!
