

P2A Navigator Release Notes

April 22, 2026

04/22/2026 8:47 am CDT

Hi, we have new release information for P2A Nav.

New Features

Company & Organization Dashboards

These dashboards provide instantaneous, real-time snapshots into how well a company and its organizations are embracing change and improving. Over the last year and a half, we've been working to add clear support for each phase of continuous improvement, from identifying the change that's necessary to implementing it successfully. These dashboards provide a summary-level view from which users can drill-down to discover more detailed information. The company dashboard summarizes data across all business units. The organization dashboard summarizes data across all the business units in that organization (inclusive of the organization itself).

See the knowledge base [article](#) for more details.

Highlights

- Usage of P2A - A report with indicators for: business outcomes prioritized, assessments completed, capabilities prioritized, actions created, and actions completed (each with short explanatory guidance and links into the relevant company workflows)
- Placeholder for future metrics - emphasizing a balance of qualitative and quantitative measures
- Current assessment score - A clear summary of the company's current average assessment score, with guidance when scores are low and links to Insights and Scores reports

Business Value

- Executive and program-owner clarity - Leaders see at a glance whether the organization is assessing as well as prioritizing and improving through actions
- Alignment and accountability - Graded usage areas make it clear where opportunities exist for coaching, enablement, or process changes
- Connection of behavior to outcomes - Tying usage patterns to the assessment score helps justify investment in the program and target improvements that move both adoption and capabilities

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
