

# P2A Navigator Release Notes

## May 06, 2026

05/01/2026 12:24 pm CDT

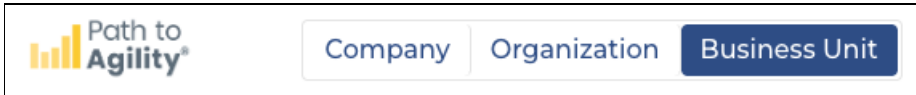

Hi, we have new release information for P2A Nav.

Today's release has beta features. If you're interested in participating in beta testing, please email [support@pathtoagility.com](mailto:support@pathtoagility.com), and we'll be happy to grant you access.

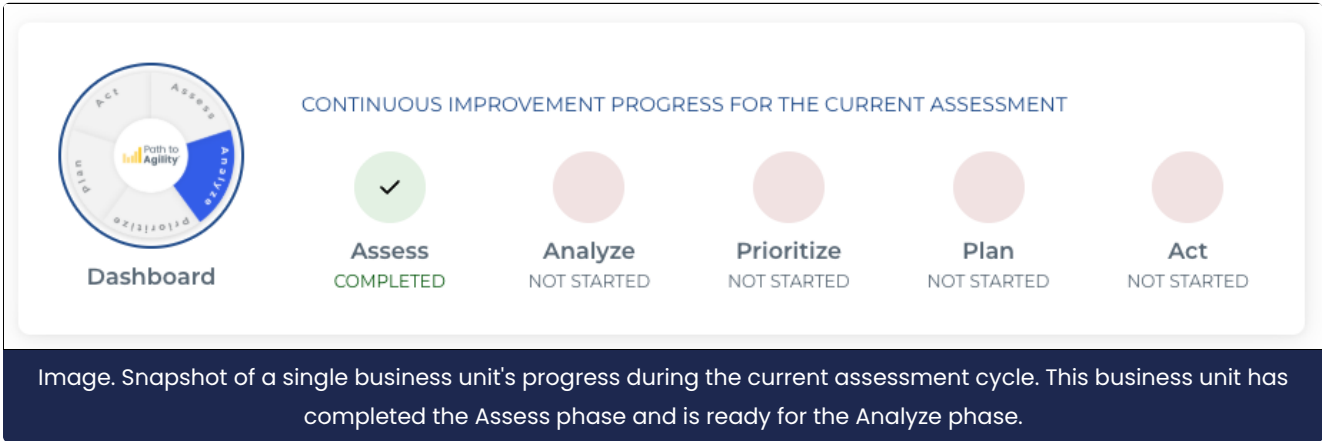

### Beta Features

#### Business Unit View

We agree the name could be flashier but we think you'll forgive us when you get access to this new view. The platform currently supports a company view and an organization view. With this new feature, we're introducing the ability to isolate a single business unit.

This view provides clarity on where that business unit is on the continuous improvement wheel. As a brief aside, the wheel represents a repetitive process that resets with each new assessment.

#### Analysis Added to Dashboards

Currently, the company and organization dashboards have a placeholder instead of an actual progress bar for "Analysis Performed". With the release of the Business Unit View, Analysis has been modified to make it an active, not passive, phase on the wheel. Analysis scores are derived from the analysis performed for each business unit. The analysis captures post-assessment learnings, ideas, and theories, which once saved, will mark the "Analyze" phase complete. That data is pulled in and

displayed on the company- and organization-level dashboards.

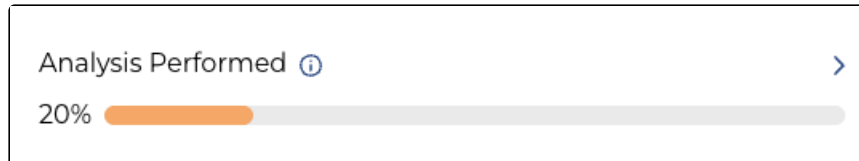

Image. Support for the Analysis phase of the continuous improvement cycle on the dashboards.

#### Updates

- The "Mark complete" / "Mark incomplete" poll options are being removed.

Team	System	In Progress	Mark complete
------	--------	-------------	---------------

These options were a temporary bridge between how polls were previously marked complete (manually) and how the system automatically manages whether a poll is complete or not now. A live poll is considered complete when the facilitator clicks the "End Poll" button. Likewise, an asynchronous poll is complete when the facilitator clicks the "Finalize & Close Poll" button on the poll's "Discuss & Close" tab.

## Bug Fixes

- N/A

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator or by writing to us at [support@pathtoagility.com](mailto:support@pathtoagility.com). Thank you for being a Path to Agility Navigator user!
