

P2A Navigator Release Notes

June 17, 2026

06/17/2026 7:50 am CDT

Hi, we have new release information for P2A Nav.

New Features

Azure DevOps (ADO) & Atlassian Jira Integrations

With this feature, we're introducing the ability to create Action Items in Navigator that automatically create work items in either ADO or Jira. Those items can then be managed in ADO or Jira and updates will be reflected in Navigator on the original action item. The detailed configuration and integration setup instructions can be found at the links below. For ADO we support two authentication options.

- ADO
 - [Azure DevOps Integration and Personal Access Token \(PAT\) Setup](#)
 - [Azure DevOps Integration and Service Principal Name \(SPN\) Setup](#)
- Jira
 - [Atlassian Jira Integration Using an API Token](#)

As always, contact us either by clicking the Contact Support button in the top navigation of Navigator or by writing to us at support@pathtoagility.com. Thank you for being a Path to Agility Navigator user!
